74% of employees* feel they have full control over their lives, both on and off the job. Down from 78% in FY2014

71% of our employees* appreciate an office or venue we give, like, or work for a week. 52% this year tracking the program

34% of employees* carpool, take transit, bike or walk to work. Up from 20% in FY2014

74% of employees* feel they have full control over their lives, both on and off the job. Down from 78% in FY2014

A “negative” change indicates a loss for the organization. A “positive” change indicates a gain for the organization.

*Our FY2015 was 13 months, so we took the daily average and applied it over 12 months to compare with last year.

**Note that we are divesting our manufacturing facility, so we are excluding its employees from our current and historical baseline.
When Annie Withey co-founded Annie’s in 1989, she wanted to show by example that a successful business could also be socially responsible. Today, as part of General Mills, Annie’s founding vision continues to guide the company. We believe it’s critical to be transparent about the progress we’re making on our sustainability journey. We know we still have more to do, but we’re excited to show you just how far we’ve come. We invite you to contact us at Sustainability@Annies.com with your feedback.

Organic Ingredients
Annie’s is deeply committed to organic products and practices that promote a healthier you and a healthier planet. By choosing organic, you’re choosing foods grown without toxic, persistent chemicals. This means better taste, better health, and a healthier living planet.

Packaging
As part of our continuous improvement efforts, we offer a wide range of packaging options that are recyclable and made from sustainable materials. Our packaging design is focused on sustainability and ensuring that we’re doing our part to reduce waste.

Manufacturing
Our manufacturing operations are focused on sustainability. We’re committed to reducing our carbon footprint, conserving water, and minimizing waste. We use energy-efficient equipment and processes to minimize our impact on the environment.

Partnerships
Annie’s is proud to partner with organizations that share our values of sustainability and social responsibility. Our partnerships include organizations like the Organic Trade Association, the Natural Food Business for Innovation, and the Sustainable Agriculture and Food System Commission.

Charitable Contributions
Annie’s is committed to making a positive impact on our communities. We support a variety of organizations that work towards sustainable agriculture, education, and food security.

Sustainability Benefits
Annie’s is committed to being a responsible and ethical business. We believe in using our resources wisely and being mindful of our impact on the environment. Our sustainability initiatives are focused on reducing our carbon footprint, conserving resources, and promoting social responsibility.

Operations
Annie’s operations are focused on sustainability and social responsibility. We’re committed to using energy-efficient equipment and processes, reducing waste, and conserving water.
